## SUMMARY

---

Am a fresh computer science graduate proficient in programming languages and system analysis. Eager to apply technical skills and contribute effectively in computer related Roles, showcasing dedication and adaptability.

## WORK EXPERIENCE

---

### Internship(Software developer)

August 2023 - December 2023

I worked as a software developer on the HePTA (Heber e-Portal Template for AQAR) project at my institution. I played a key role in designing and developing a PHP-based web portal aimed at benefiting our college community. I successfully demonstrated my skills and made appreciable contributions to the project, showcasing good conduct and character throughout the internship.

## PROJECTS

---

### TRANSFORMING AIR GESTURES INTO DIGITAL TEXT

[view documentation](#)

The "Transforming Air Gestures into Digital Text" project is an innovative endeavor that revolutionizes human-computer interaction. It focuses on developing a real-time hand tracking system that allows users to sketch alphabets and numerals in the air using their index finger. This groundbreaking technology aims to make digital interaction natural, intuitive, and accessible for everyone, paving the way for a more connected and inclusive digital future.

## EDUCATION

---

2021 - 2024	B.Sc Computer Science at <b>Bishop Heber College</b>	(CGPA:7.8/10.0)
2021	Class 12th at <b>Sacred Heart Higher Secondary School</b>	(74% )

## PUBLICATIONS
